

## Some Southern New Jersey Observing Sites

Location	Latitude (North)	Longitude (West)
Atsion Field	39° 44' 32"	74° 43' 28"
Batsto (WAS Public)	39° 38' 37"	74° 38' 45"
Belleplain Athletic Field (SJAC Public)	39° 15' 00"	74° 51' 30"
Carranza Field	39° 46' 52"	74° 37' 41"
Coyle Field (CFA Private)	39° 48' 47"	74° 25' 20"
East Point Lighthouse	39° 11' 40"	75° 01' 44"
Steelmantown (SJAC Private)	39° 17' 10"	74° 47' 36"

**Note:** Batsto and Belleplain are accessible during Public Star Watches of the Willingboro Astronomical Society and the South Jersey Astronomy Club respectively. Access is possible at other times, but park police or rangers might demand an untimely departure.

Access to Coyle Field or to Steelmantown is via a locked gate. One must be a member of the Coyle Field Astronomers or the South Jersey Astronomy Club respectively to obtain the necessary credentials to use these sites.

The Latitude and Longitude data are from GPS readings compiled by Joe Stieber (the data was checked against a topographic map).
